

BEEKAY RAT AND MOUSE LOW PROTEIN MAINTENANCE DIET (BK0015ES)

This diet has been formulated to provide a balanced diet for short and long-term maintenance of rodents. It is particularly suitable for animals on long-term toxicity studies having lower protein and energy levels so reducing the onset of obesity and age related degenerative diseases, particularly of the liver and kidneys and so promoting greater life expectancy.

For breeding and young growing animals breeding diet (such as BK001 or 002) is recommended.

Product Information

Order Name: Beekay Rat and Mouse Low Protein Maintenance Diet (BK013ES)

Main Ingredients: Wheat, Wheatfeed, Extracted Soya Bean Meal, Delactosed Whey, Soya Oil, Minerals, Vitamins, Amino Acids

Form: Expanded.

Presentation: 12.5kg paper sack.

Other packing available on request.

Irradiation: 25kGy, double wrapped and vacuum packed.

Other presentations on request.

Labelling

Each bag is labelled with

- Product reference
- Expiry date
- Batch identification

Quality Control Analysis

Independent laboratories perform physical-chemical and microbiological analyses on each batch of diet. Periodic full chemical analyses are conducted on selected batches to assure consistency over time.

Analysis of every batch available on request
